

Congratulations!

PEER TO PEER

Darius Quick

You have been recognized by Karen Rosquist

Darius's dedication to providing excellent patient care was instrumental in identifying that some families discharged from the hospital with 'gravity' bags for feeding's and or flushes were not able to problem solve using the items at home efficiently leading to the implementation of making sure nurses and Home care coordinators ensure families know how to fill the drip chamber correctly. His excellent phone etiquette is exemplary as well
