I received a call this evening from Tom Bogeth who is the father of enteral patient Miracle Alabi DOB 12/20/2013. He wanted to submit a compliment for Darius. Per Mr. Bogeth, Darius went above and beyond by calling the physician on-call for his son to get an emergency order for a substitute formula. Mr. Bogeth reports he now has a case of substitute formula to feed his child until his regular formula arrives after being on backorder for which he is extremely grateful and is thankful for Darius
